ACOS SKIN STAPLER

○ Acos skin stapler wants to be the best quality product

It is a single use skin stapler evaluated as less jamming, less empty shot with less power for operation. Acos Skin Stapler has application in abdominal, gynecological, orthopedic and thoracic surgery for skin closure. It could also be used for great variety of other skin closures.

ACOS STAPLE REMOVER

○ For the Acos Remover, we have concentrated on user's convenience.

We are using the same material of surgical blade for the safety.
It can be operated with less power.
The ergonomic design reduces the user's stress.
It can be applied to remove all the size of staples.
