Product Description

Core-Trocar is designed to perforate to insert medical instruments during laparoscopy.

It is disposable sterile medical device, consisting of a cannula to secure the insertion path of the surgical instrument and a trocar to facilitate laparoscope insertion.

Product Features

- Ergonomics Design** Designed to perforate with low force and grip in consideration of the operator's convenience
- Minimally Invasive** Minimizes body damages as a bladeless product
- Cannula Separation Function** To conveniently remove impurities generated during the surgical procedure (8/10/12mm type)
- Excellent Air-Tightness** Excellent ability to maintain air-tightness through double sealing structure of main-seal and sub-seal
- Serration Process** The surface of the cannula is serrated shape which does not come out easily during the surgical procedure

Product Specification

(Unit : mm)

No.	Type	Model	Cannula Inner Diameter	Cannula Length (without head)
1	2mm Type	IC-TC02	2.4	125 (80)
2	3mm Type	IC-TC03	3.7	125 (80)
3	5mm Type	IC-TC05	5.8	125 (80)
4	8mm Type	IC-TC08	8.1	130 (80)
5	10mm Type	IC-TC10	11.5	150 (100)
6	12mm Type	IC-TC12	12.9	150 (100)
